

## **Early Years Network**

Supporting healthy childhood development through the First 2000 Days Framework

Early Childhood Health and Development Webinar Series

## **Early Communication Development**

Presented by Anna Wheaton, Speech Pathologist, ISLHD and Kiara Masi, Speech Pathologist, ISLHD

This is the fourth webinar in a series focusing on health and development in early childhood. Children are building their communication skills from birth - from eyecontact, to simple sounds, gestures, first words and sentences. This session will cover normal communication development milestones in children (0-3 years of age), how you can support children's communication development, information on how to refer to a speech pathologist and where to direct families for further information.

Where: Online via Zoom\*When: Thursday 28th JulyTime: 12:30pm - 1:30pm

\* Zoom link will be emailed a few days before webinar
